ACCESS for ELLs 2.0

ACCESS for ELLs 2.0 is a secure large-scale English language proficiency assessment anchored in the *World-Class Instructional Design and Assessment (WIDA) English Language Proficiency (ELP) Standards* and administered to students in Grades K-12 who have been identified as English learners (ELs). It is given annually in Alabama and is used to monitor EL students' progress in acquiring academic English within the school context, as well as language associated with language arts, mathematics, science, and social studies across four domains of Speaking, Listening, Reading, and Writing. From the results, the state can determine when English Learners no longer need support from the English as a Second Language (ESL) program. This is the only way that a student can exit the ESL program. Approximately 20,000 students participated in ACCESS for ELLs in 2015.

Alternate ACCESS for ELLs is a performance-based assessment developed specifically for English learners (ELs) in Grades 1-12 with significant cognitive disabilities.

Number of LEP 1 students who participated in <i>ACCESS for ELLs</i> but did not participate in the state reading/language arts assessments (ACT Aspire/ACT Plan)	392
District information for LEP 1 students who did not participate in reading/language arts assessments can be found at http://www.alsde.edu/dept/data/Pages/assessment-all.aspx

ACT Aspire

Educators must measure what students know at a point early enough in their academic careers to make adjustments and continue to measure their progress and what they learn over time. With the adoption of ACT Aspire, the Alabama State Department of Education is ensuring that students are ready. ACT Aspire is a standards-based assessment system that gauges student progression from grades 3 through 8 and 10 in English, reading, writing, mathematics, and science.

- Required subject tests include reading and mathematics for students in grades 3-8 and science for students in Grades 5 and 7.
- Schools and districts are encouraged to administer the optional English and writing, as well as science in the off grades, so that educators have the information they need to monitor their students and help them succeed in all areas.
- A STEM score is provided for any student at any grade level who takes both math and science.
- With the sunset of ACT Plan, students in grade 10 will take all five sections of ACT Aspire for the first time in spring 2015-2016.
- Schools and systems have the option of testing their students with computer-based or paper formats.
- The fact that ACT Aspire links to the benchmarks of the ACT is the most attractive characteristic of this assessment.
- In 2015, approximately 350,000 students in Grades 3-8 were tested with the ACT Aspire.

ACT Plan

Based on the same college readiness standards as the ACT, ACT Plan data helps school and district leadership teams advance student achievement and improve instructional tools. The ACT Plan, which includes four multiple-choice tests (English, Mathematics, Reading, and Science), is administered to all Alabama public school students in Grade 10. Alabama publicly reports ACT Plan English, ACT Plan Mathematics, and ACT Plan Science.

Alabama Alternate Assessment 2014-2015

The Alabama Alternate Assessment (AAA) is designed for special education students in Grades 3-8 and 11 whose Individualized Education Program (IEP) teams determine that the students will not participate in the regular student testing program. The AAA measures a student's mastery of academic goals based on the Alabama Extended Standards.

National Assessment of Educational Progress (NAEP) Report

Also known as the nation's Report Card, the National Assessment of Educational Progress (NAEP) is the largest nationally representative and continuous assessment of what America's students know and can do. Congressionally mandated, NAEP was first administered in 1969 to measure student achievement nationally. Alabama has participated in the state-level assessments of NAEP since 1990. There are differences in NAEP and Alabama's assessments. NAEP is not aligned to any particular content standards, whereas Alabama's assessments are aligned with the college and career readiness standards. Proficient is defined for NAEP as "competency over challenging subject matter." Proficient (Levels III and IV) for Alabama's assessments is defined as "meeting or exceeding college and career readiness benchmarks." All Alabama students participate in Alabama's assessments every year at each required subject and grade level; however, only a small representative sample of Alabama students participate in NAEP.
